This material is resistant to wear and corrosion. It is available in a variety of colors, including black, red, blue and yellow. It also has different lengths..

Cleaning and maintaining these parts is easy. Please do not use cleaners to clean these parts, because the chemicals in these cleaners can have more damage on the rubber components. Use a dedicated rubber cleaner/shine to clean these components. Or use a microfibre cloth to apply the fluid/wax to the rubber surfaces. Tyre shine/wax are good too.
